

Parent Teacher Association (PTA) acts as a bridge between the parents and the college to foster a healthy relationship amongst all three stakeholders, i.e., students, teachers and the parents. It also keeps a check on the proper utilization of funds for the students and makes suggestions for upgrading facilities provided by the college. Other purpose of the formation of PTA is to assess the academic and non-academic performance of the students and to evaluate the activities held in the college. It addresses the concerns of the parents with regards to their wards and helps in promoting the welfare of the students.
